Services:

- Identify personas and journeys
- Survey and interview customer
- Design solutions in design thinking workshop
- Document pain points and solutions
- Check feasibility of solution implementation
- Define KPIs to measure EX impact
- Measure within journey scope for 1 month
- Access to CxHR platform ('proof-of-concept' version)

Why consider:

Be it at 'moments that matter', where HR can directly influence the employee's engagement and performance or at 'effortless moments', where fast and easy service access matters most: The employee experience of (new) HR products is key. The Journey Re-Design resolves your current experience 'pain points' using the world's leading EX framework and platform to design, share and measure experience, and act on insights.
